

SUTERA

A script Font inspired by Jawi script writing.
By picking out specific strokes from the Jawi
script and combining it together,

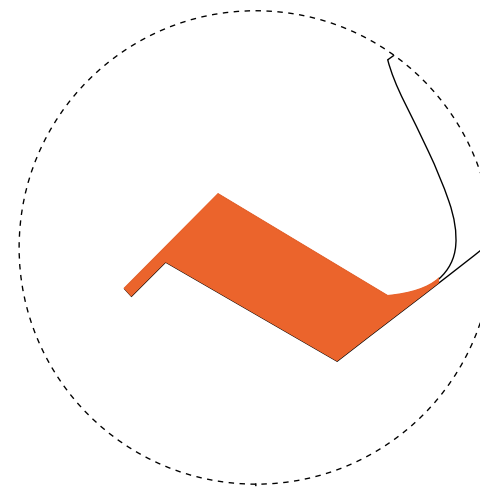

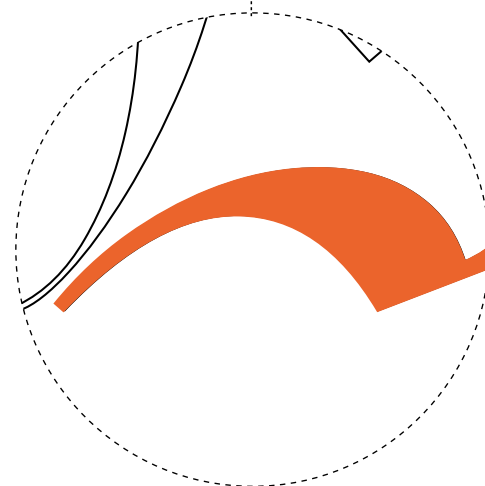

SUTERA is born.

A timeless decorative style that feels grand
yet handwritten.

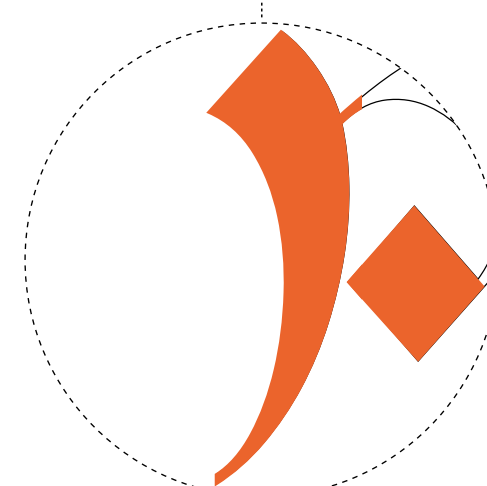

Inspired by specific Jawi script letters such as Ba, Ta, Tha. Has a gap between the two strokes to give a suggestion on the letter B.

Inspired by the strokes in Jawi script writing where there is an upward flick. Added a diamond in the center to give a suggestion instead of a straight horizontal line to mimic the letter A. The diamond is inspired by the number 9 in the Jawi script.

Inspired by Ro in the Jawi script Font. To keep the similarity between each font, a diamond is added to give suggestion that it is a letter P

Inspired by Alif in the Jawi script Font. Used thin strokes to join each other. Added a long stroke to make the letter look more even.

Dengarkan tuan suatu kisah,
Bulan Muharram empunya termasah,
Syair dikarang melempar jasa,
Dengarkan juga dewa angkasa.

Listen, sir, to a certain tale,
In the month of Muharram, most sacred and pale,
A poem composed to cast forth virtue
Even the spirits of the heavens shall hear it too.
